

# Guide employees through major life events with a **customized** Leave of Absence hub.

## How we'll help:

We'll build an interactive website just for your organization, with features that engage and support your employees throughout their leave of absence, wherever they are.

This tool offers responsive design, customized content, and holistic communication capabilities, taking some of the weight off HR teams and providing a round-the-clock resource to employees. Robust analytics provide insight into leave trends and utilization.

Outside the firewall, available anytime, anywhere

Email, text, Slack, or bespoke comms possibilities

Custom content and branding for a seamless experience

## Advantages:

- **Centralization of information**, links, and resources, sorted by an individual's reason for leave
- **Keep users informed and on track** with email reminders, checklists, widgets and graphs
- **Evergreen design** houses content that can be easily updated
- **Eligibility questions** ensure access to relevant information, without asking too much of an employee's time
- **Accessible outside the firewall/VPN**, so employees can access information and resources while on leave
- Provide employees with a way to learn about their leave options in an **anonymous, confidential** space
- **Custom branding opportunities** can make the site a seamless extension of your company

*Offer relevant info and comms to employees wherever they need it*
